

**Quality Policy Statement**

Omnis Engineering Ltd is committed to providing exceptional service and products to its customers by understanding their needs and end goal requirements.

We strive to be our customers preferred pipework engineering partner of choice by focusing on communication, flexibility, and the continuous improvement and effectiveness of our quality management system.

Our objectives are to deliver on time in full orders to all our customers and this is achieved by the leadership within the Company and the total engagement of employees.

The Company is dedicated to working in a respectful and safe environment and comply with all applicable industry standards and regulations.
